Garden Fancier's .. Guidebook ..

FALL EDITION

H. J. OHMS, INC.
FLOWERBULB SPECIALISTS
Stamford, Connecticut

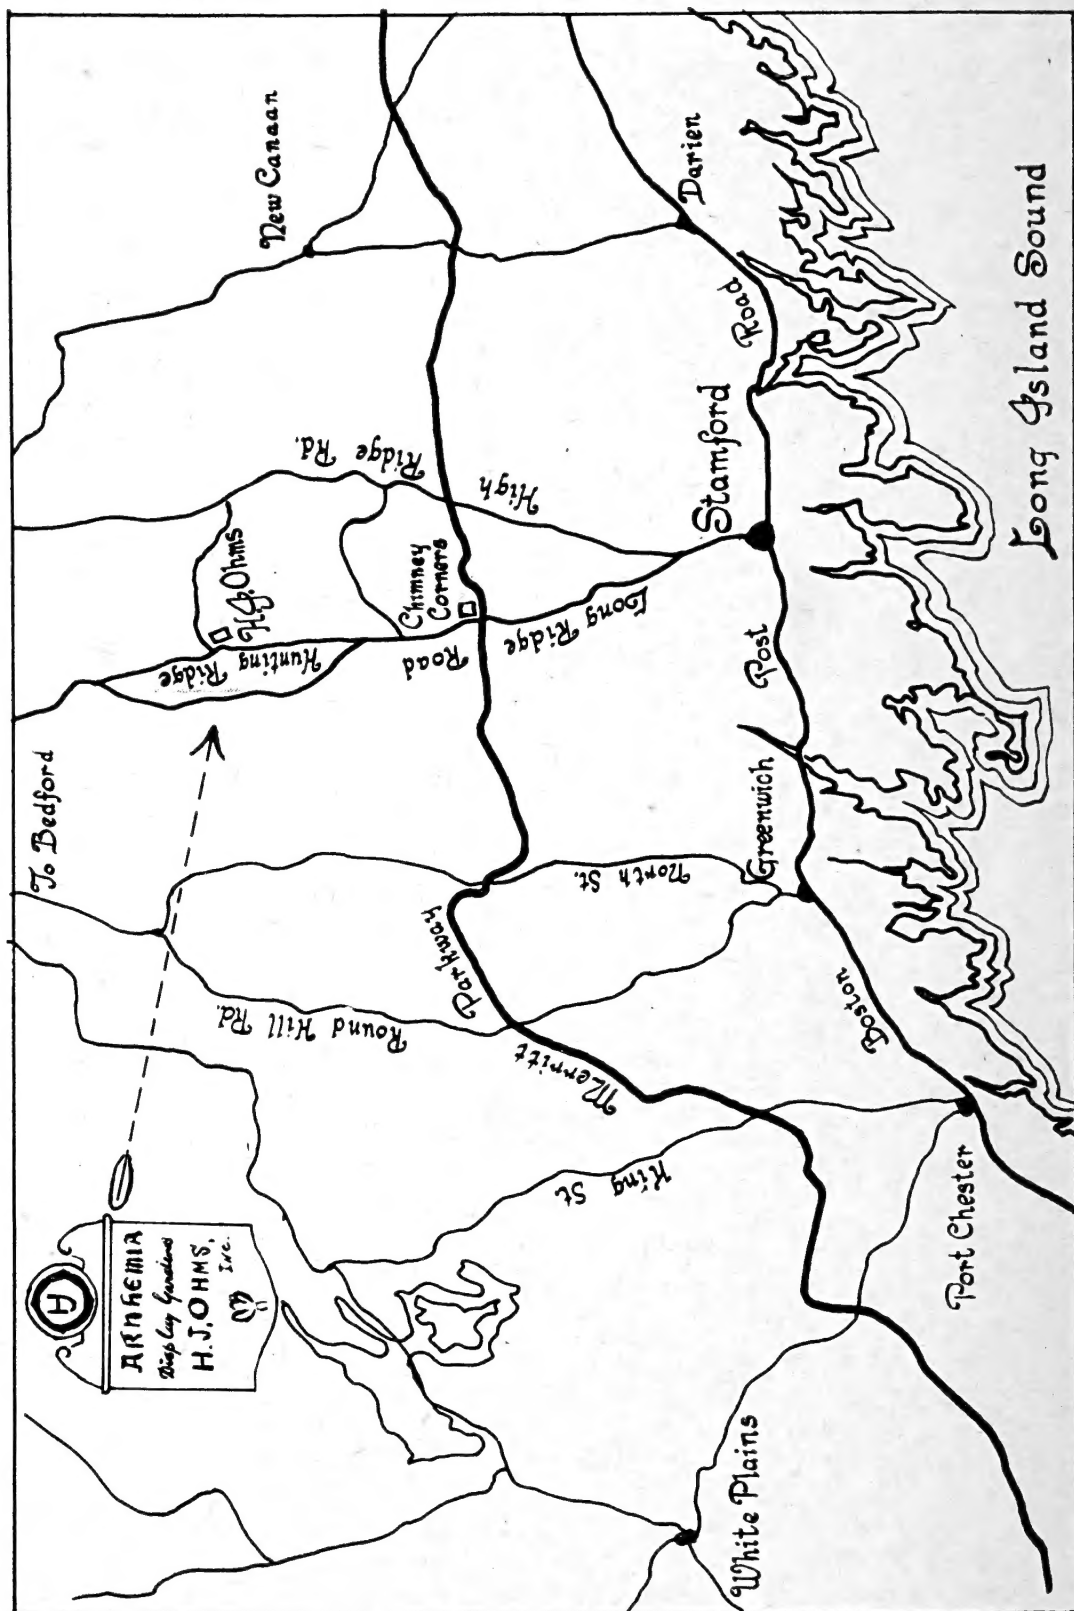

In this issue of the Garden Fancier's Guidebook very special consideration and space has been given the HOLLAND TULIPS, HYACINTHS AND MISCELLANEOUS BULBS which, for the first time in five years, will once again be imported from THE NETHERLANDS.

A great many more varieties are listed, amongst which fine novelties hardly ever shown in this country. Above all, you may be confident that the quality of this material will be worthy of the name this product of The Netherlands made for itself in the past.

Please consult our Spring Edition for HEMEROCALLIS, IRIS, PHLOX AND HYBRID LILACS; a special list of Flowerbulbs and Plants for the greenhouse will be mailed upon request.

"ARNHEMIA" Gardens at Hunting Ridge and Haviland Roads are open to Garden Fanciers at all times; please visit us, whenever you can.

INCOMPARABILIS NARCISSI

Cup or crown measuring from one-third to nearly the length of the perianth segments.

BERNARDINO. (2b) Perianth creamy white, cup edged orange, very free-flowering, good grower, recommended.

CROESUS. (2a) Universally popular both for the garden and for exhibition; light canary-yellow perianth of perfect form, with outer petals nearly touching, the inner ones overlapping, opening flat; broad fluted cup of rich orange to base; substantial, free-flowering and a fine propagator; desirable in every way.

\$ 1.70 for 10, \$ 14.50 per 100.

DICK WELLBRAND. (2b) One of our finest introductions, very strong grower and exceptionally free-flowering. The perianth is pure white and the cup flame orange. One of its most remarkable qualities is that the color does not fade, but rather intensifies with age. The flower lasts unusually long and we believe that this variety will be of the greatest value both for greenhouse work or for outside. Its great beauty lies in the startling contrast between petals and cup which makes it stand out in the largest collection of daffodils. A worthy companion to Francisca Drake.

\$ 9.00 for 10, \$ 85.00 per 100.

FRANCISCA DRAKE. (2b) It is impossible to describe adequately the beauty of this unusual flower of a distinct new type; the pure white perianth petals are of unusual substance; an inch and a half wide, and tinted gold at the base, which shows through on the outside; the cup, wide and deep, is golden yellow at the base, changing gradually to flame orange at the densely frilled edge; the flowers are held well above the fine foliage and give the effect of a flock of white seagulls taking flight; strong-growing and very free-flowering.

\$ 2.65 for 10, \$ 23.00 per 100.

HELIOS. (2a) Deep golden yellow perianth, semi-overlapping, the cup opens a little darker than the petals and in a cool climate gradually changes to light orange.

\$ 1.70 for 10, \$ 14.50 per 100.

JOHN EVELYN. (2b) Deservedly an international favorite; outstanding among the new Incomparabilis hybrids; flatly opening perianth, 4 to 5 inches across, with a flat cup nearly 2 inches in diameter, densely frilled, the perianth being pure white without trace of shading, and the cup lemon-yellow and fluted or shirred to the base, good neck, strong flower, free-flowering and a good propagator; one of the greatest daffodils of the present day and for years to come.

\$ 2.65 for 10, \$ 23.00 per 100.

MILFORD HAVEN. (2b) Fine flower with cream-white perianth and wide cup ruffled and deeply frilled at edge, chrome yellow at base and shading into rich orange-scarlet, the same gorgeous color combination as in the Montbretia, "His Majesty."

\$ 2.65 for 10, \$ 23.00 per 100.

RED SHADOW. (2a) A most attractive flower of bold appearance. The perianth is creamy yellow and the cup is dark yellow, with orange-red margin. It is unusually free-flowering and a strong grower. Although one of the latest Incomparabilis types to flower, it forces well and is very attractive in pots. One of the best exhibition flowers.

\$ 2.90 for 10, \$ 26.00 per 100.

SHEHERASADE. (2a) A very tall variety with citron colored perianth; beautiful proportions; heavily frilled cup of pure chrome yellow, self-color throughout with no trace of orange.

\$2.00 each.

WALTER HAMPDEN. (2a) Very tall and outstanding; bright primrose perianth and deep yellow trumpet of Loudspeaker type, with a hint of orange in the frills; very vigorous grower, medium late.

\$ 2.35 for 10, \$ 21.00 per 100.

YELLOW POPPY. Well formed flowers with overlapping primrose-yellow perianth and expanded shallow cup, bright yellow, edged orange, height 20 inches; excellent for forcing and unsurpassed for naturalizing.
